## Talk on Age Loc: Keep your Age a Mystery by Nu Skin, 13th November 2010

The Ladies' Committee of the Teachers' Co-operative organized a wellness programme for its members and their guests. They attended a talk by the skin care and wellness company, Nu Skin Enterprise, on how to maintain a healthy lifestyle through living young. These include, having a balanced nutrition, strengthening one's immunity, relying on a network of anti-oxidants, weight management and resetting one's genes.

The talk given by Ms Mary Tan on 'Age Loc: Keeping your Age a Mystery' focused on the use of a spa system that identifies the youth-gene clusters from the thousands of genes that make up the human body and resetting these genes to attack the signs and source of ageing. Ms Tan spoke on the external approach to combat ageing through their spa system as well as the internal

approach that involves maintaining a healthy body.

The talk was very informative and it also highlighted the stages as well as the types of ageing. Besides the talk, there was also a demonstration on how Nu Skin products are different from other commercial brands available in the market. The audience was able to see the comparison through three tests - acidity, oil and anti-oxidant levels.

Finally, the chairperson of the Ladies' Committee, Ms Elene Lim gamely volunteered to be the model to test out the spa products.
